### G.R. Sampson: Library Catalogue

This listing has been made for insurance purposes and to make the academic section of the collection more useful. Bibliographic details are kept to a practical minimum: long titles, or subtitles, are shown only so far as needed to identify a book and its topic. (In some cases where titles give inadequate indications of topic, a clearer phrase is inserted in square brackets to facilitate lookup.) Hard v. paperback binding is relevant to replacement cost and is stated, but edition dates are ignored. No place of publication is included in the case of well-known publishers, or publishers based in London. The codes H, S, and BAP mean “hardback”, “softback”, and “bound after publication.”

Entries preceded by solidus are for books stored at the back of the shelves to save space. Where duplicate copies are listed, some may be at the back without being indicated by solidus.
